1893	Margaret June Willis died and left property to John J. Willis of Westfield.	Ditto
1937	(No records available). Property is still in hands of the June family.	

Historical Background:

The Outhouse of the June Residence is the most luxurious example of its type in Westchester County. It is Greek-Revival in style, and of the same general design as the residence which has been called the "Mansion".

John J. June, while associated with Lewis Titus, Caleb Angenine and Jeremiah Crane, all of Salem Center, was the leading figure in the amusement business in New York City. At this time June built the "Mansion," he carried out the design of the Outhouse in the pretentiousness of the residence. The smaller building was carefully designed to cater to the needs of the family in the days when modern sanitary conveniences were unknown.
